

## Why is the registration fee necessary and non-refundable?

The Master's Academy programs run on a limited resources budget. The registration fee is collected to pay for supplies for all of the classes as well as insurance costs. As children register during the spring and early summer, supplies for the year are purchased and the money simply is not available for refunds. In addition, we desire families to seriously consider their commitment to the program before they ever register. As described above, The Master's Academy of Fine Arts is a serious, academic arts program and as such requires serious commitment on the behalf of both parents and children enrolled.
