

## Can I take just one class or do I have to take them all?

The Master's Academy Exposure program is a complete package as described above and as such cannot be broken into individual classes. Many schools offer additional options however which may be taken apart from the regular MAFA program. These Master's Institute classes are offered either prior to or after the regular Master's Academy program each week. You would need to contact the specific location of your choice to find out what is being offered as Master's Institute options.
