

The Master's Academy of Fine Arts is primarily an elementary school program isn't it?

Not at all! There are many different levels within the Master's Academy to provide for all ages and all levels of development. Our exposure level program is for students age 5-18. The students wanting more in a specific area of the arts may check into our Master's Institute classes. If you would like to receive a performing arts high school degree, register for our Artios program (not currently available in all locations)
